

Covid-19 & Health Considerations

Covid-19 still exists and we are mindful of this, although there are ongoing opportunities for vaccination, and mask use is now optional. The following are practices that we have in place:

- Hand-washing before and after snack time
- Individual plating of snack food (not buffet-style)
- Individual student supply bins
- Masks are available on-site for those requesting mask use, or for those displaying symptoms of illness
- Regular, daily sanitizing measures

Symptoms such as fever, nausea/vomiting, or chronic coughing should warrant care, and it is advised that students with these symptoms stay home and not attend LITGROUPS.
